*Your Knowledge
Our Support*

MLC aims to offer cutting-edge training and research services to public and private organizations in India. MLC QEHS Training delivers professional training and research programs that are varied in topics including Environment, Health, Fire & Safety.

We deliver agency-specific training, career development programs, and customized consulting solutions to enrich learning and optimize individual, group, and organizational performance.

Online Training

Online Training

MLC QEHS Training delivers online training anytime, anywhere—just a click away! Our online education programs are designed to provide the workforce skills necessary to enter a new field or advance in your current career. Our online courses help you learn critical skills, with classroom-based training at your fingertips with the course locator.

Gain the skills at MLC QEHS Training, with flexible study options making you trained by a trainee, wherever you are in the world. Our online training and safety training programs are simple and affordable for you. Take your live online training course with the goal of training what companies expect from their future employees.

Key Goals

Keep students more interested and interactive

Make learning enthusiastic and natural

Encourage cooperation between instructor and student

Making concepts applicable in real-time

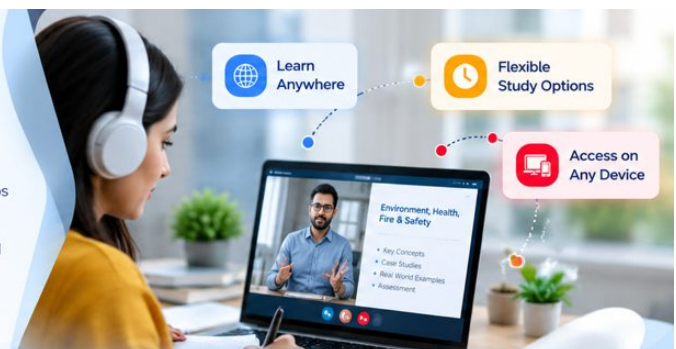

Flexible time slots for students

Attend through Phone or PC

Live & Interactive Sessions
Learn from industry experts in real-time.

Wide Range of Topics
Environment, Health, Fire & Safety and more.

Career Development
Build skills and advance in your career.

Frequently Asked Questions

Q. What subjects does MLC's online training cover?

Five areas: Quality, Environmental, Health, Safety and Fire. The topics run from Good Manufacturing Practices and data integrity to waste management, first aid, confined spaces and fire risk assessment.

Q. How do participants attend an online session?

Sessions are live and can be attended from a phone or a PC, with flexible time slots, so people can join from wherever they are.

Q. Who is the online training for?

Public and private organisations, and individuals who want the skills to enter a new field or advance in their current career.

Q. How does MLC keep online sessions engaging?

The sessions are designed to be interactive, to encourage cooperation between the instructor and the participants, and to make concepts applicable in real time.

Q. Can the training be tailored to our organisation?

Yes. MLC delivers agency-specific training, career development programmes and customised consulting solutions.
